

Extracting Coordinates using

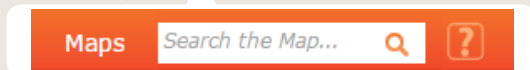

How to capture the **coordinates of a location** utilising Land Tasmania's online mapping system; LISTmap.

LISTmap is a free, easy to use, online map application that allows people to view, create and share their own customised maps of Tasmania.

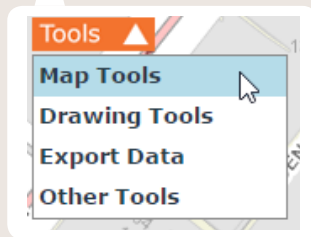

1. In a web browser type in **maps.thelist.tas.gov.au**

2. Open LISTmap and navigate to the area of interest by:

- using the **Search Bar** to enter in feature names or addresses,

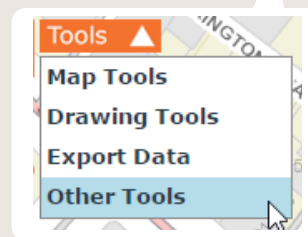

- **double clicking** the **Left mouse button** to zoom in,
- using the **mouse scroll wheel** to zoom in and out,
- by clicking and dragging the orange **Slide Bar**,
- **zooming in** using **SHIFT + Left mouse button** to click and drag an extent or
- hovering over the **Tools** arrow and clicking on **Map Tools**, clicking the **Zoom In** or **Zoom Out** button,

then **clicking and dragging** to create a box around the area from which you wish to zoom.

3. Then hover over the **Tools** arrow and click on **Other Tools**

4. Click on the **Locate Me** tool

5. Click on the map.

A **Point Grid Reference**

Box will appear giving you the coordinates for that point in different coordinate systems. The most commonly used coordinates in Tasmania are **Latitude / Longitude (DD)** or **GDA 94 MGA Zone 55**.

The minimum web browser requirements for LISTmap are:

- Firefox 3.6
- Chrome 3.0
- Internet Explorer 8.0
- Safari 5.0

LISTmap performs best with the latest versions of web browsers.
